

KING CHARLES III AND 'THE GREAT RESET'

Are we about to have a
Quisling King?

A Talk by Justin Walker

Thursday 9th February - 7pm

@ The Old Convent, Beeches Green, Stroud. GL5 4AD

Our new monarch, King Charles III, is a man passionate about ecology and the environment; giving disadvantaged young people a proper start in life; supporting endangered rural crafts and traditions; preserving endangered heritage and architecture; and helping local communities to become more self-reliant and able to cope with the growing threats from 'big business' in this increasingly digital age. At his forthcoming Coronation, our new King will become our first-among-equals, responsible for protecting and sustaining our ancient and supreme Common Law Constitution as confirmed by the 1215 Great Charter (*Magna Carta*). His primary role is to protect us all, without fear or favour, from government over-reach and the tyranny of those who seek to overturn the Rule of Law and our democratic procedures.

However, in June 2020, as the Prince of Wales, the King publicly endorsed the World Economic Forum and its planned 'Great Reset' (also known as the 'Fourth Industrial Revolution') where, apparently, we will all own nothing, but we will be happy!

He is passionate about seeing a net zero economy to stop 'Climate Change', but does he fully understand the Orwellian consequences of such a move? Does he fully understand the dangers of having a Central Bank Digital Currency being enshrined with an invasive and detailed Social Credit System? Can he not see the dangers of us, his people, becoming Digital Slaves that are increasingly becoming answerable to Artificial Intelligence? And is he aware of the nightmare dangers of Trans-Humanism? Does he want his Kingdom to reflect what's happening in Communist China where the people there are becoming increasingly controlled and imprisoned by SMART 5G surveillance technologies? Does he want an 'Internet of Things' and an 'Internet of Bodies'? Does he want to see 'Digital Feudalism' whereby a tiny number of elitist psychopaths completely control the rest of us?

Something is clearly very, very wrong! Our latest research is showing that these globalists are effectively organising the Coronation. Justin will be able to give you the latest evidence for this along with what we need to do to stop our King from intentionally, or hopefully unintentionally, betraying his people. Our ancient Common Law Constitution needs a benign and wise Constitutional Monarch to protect our freedoms. Sadly, we are on the cusp of a massive constitutional crisis! The people's voice must now be heard! It is simply 'The People' v 'The Globalists!' 'Good' v 'Evil!' It's time to roll up our sleeves! The 'Great Awakening' has well and truly started! And the Coronation must now become a focal point for our very real concerns!

Justin Walker has been researching and campaigning against the globalists for well over thirty years. Due to his uncle, he was allowed to see briefly behind their mask...he knows both their strengths and, more importantly, their weaknesses. He has been a champion of Sovereign Money and the 1914 Treasury-issued Bradbury Pound after being alerted to it by an insider ten years ago. He is also passionate about our Common Law Constitution. Three years ago, he co-founded with Sir Julian Rose, the **Hardwick Alliance for Real Ecology (HARE)** <https://hardwickalliance.org>.
