

Sandi Adams

talks about...

UN Agenda 2021/2030

The W.H.O. Pandemic and The Great Reset (*aka the world of lies*)

**Thursday 1st December,
7 p.m. start**

@ The Old Convent, Beeches Green, Stroud, GL5
4AD.

£8 cash on the door.

For one mother, a brief meeting with Bill Gates led to conducting a dedicated investigation of the [Global Biodiversity Assessment](#) (hosted by the UN, archived online, academically reviewed): over 1,000 pp detailing a [dystopian plan](#) for the world.

Sandi's talk will expose the details of the declared globalist Agenda 2030 plan to control every aspect of our lives. Nothing's safe from globalist control:
not health, education, justice, food and water, gender, energy, economies, cities, land, sea nor air.

Sandi Adams is a historic researcher into the UN, Earth Summit 1992, and the WHO. She reveals the real truth of Sustainable Development, 5G technology, The Smart City Agenda and of a centralised, surveillance state global governance system and beyond. This is dark stuff presented in positive way. The current systems must break down to make way for a new paradigm. Historically, psychopaths have tried to steal our world many

times and failed; this is their last push... - the final battle, and **we will win!** We just need to be aware of what the enemy's up to.

Join Sandi Adams on Thursday 1st December – a regular guest of Brian Gerrish on

UK Column (e.g. tinyurl.com/34mcrcvtv) as she exposes this [world plan](#), now better known as 'Agenda 2030', and hear why she warns us that it must be stopped.

“The truth will set us free”
