Thursday 2nd February - 7pm...

...put the date in your diary!

**JOINING THE DOTS...FROM GLOBALIST CONTROL...
TO SOVEREIGN FREEDOM**

Exposing the evil

Breaking the spell

Releasing the magic

Lighting the way forward

A dynamic presentation by David Adelman, the People's Lawyer...

that aligns the message of his ground-breaking book:

SCHOOL-NO PLACE FOR CHILDREN

to the events of the last few years and to the future that awaits.

He will expose the 5th generation military grade psychological warfare and social engineering put in place in the classroom, designed to produce generation after generation of compliant, authority-fearing citizens, and now a key part of the one world government UN agenda aimed at destroying humanity.

He will address the monumental shadow schooling has cast over our lives, and how we can all play our part in dismantling this generational 'curse', and bring down the globalist agenda once and for all, both individually and collectively.

The future of humanity as we know it depends on us.

Bio: David Adelman - The People's Lawyer

The People's Lawyer (TPL) is Manchester UK born David Adelman, who never really fitted in. To disguise this alienation, he went through the motions of excelling at school. This took him to Cambridge University where he studied law and went on to qualify and practise as a Solicitor.

Disillusionment with the system soon set in. Still in his 20s, he quit office work and went off to Spain, to have a direct rather than vicarious life experience. After returning to Manchester 7 years later, he was eventually offered national funding to go to schools to introduce a card game (bridge, his lifelong passion and hobby), into the classroom, to help entire cohorts of children with cognitive and social skills development.

This extensive experience in schools led David to write and publish a book: **School – No Place for Children.**

As well as a live online privacy and universal rights course,

TPL also delivers live in-person presentations, with an urgent remit to awaken people to the realities of global deceptions that affect us all, and to embolden and encourage people to stand up in the face of tyranny.

The 2023 focus is very much on reminding grown-ups what has been done to them at school, encouraging them to repair the damage and move on, while also ensuring that the maximum number of boys and girls are pulled out of school as quickly and safely as possible. This now brings together his two main passions: lawful freedom and humane education.
