

# A Common-Sense World Where Science Is Not God!

**Dr ZAC COX**  
**&**  
**Dr KARL COX**

...talk at The Old Convent, Beeches Green, Stroud,  
GL5 4AD ★ 7.00pm ★ Sat 11<sup>th</sup> Feb 2023 ★ £8

In May 2022, Zac and his lawyer took Sajid Javid to court to challenge the proposed International Health Regulations (IHR) amendments which would have given local lockdown/ pandemic rule decisions to the W.H.O. rather than being decided locally or nationally, and fortunately he succeeded. Sajid Javid dropped the amendments at the 11<sup>th</sup> hour.

Zac has been behind some excellent & successful campaigns such as the **Jobs not Jabs** campaign which saved many medical professionals' jobs. This particular campaign also protected many professionals from being bullied at work, before a reversal of the government's mandatory policy regarding Covid-19 vaccines for all in health care. Zac is currently looking at ways to fund further legal challenges – both environmental and public law issues being of particular interest.

**Dr Karl Cox** Ph.D., Senior lecturer at Brighton University queries: **'Is Green Really Green'?** He says, "The Agenda of Sustainable Energy may not be as sustainable as you think. We will present the true impact on the natural world of the scramble for digitisation and so-called 'Green' energy. There are simple solutions to these seemingly insurmountable problems that we are told to fear."

**Together** Zac and Karl give talks on behalf of **The World Foundation for Natural Science**, a remarkable organisation which seeks to draw humanity back to a common-sense world where science is **NOT** God ! They bring spirituality to the scientific debate – something which seems to have been lost as science seemingly fails to recognise a Divine Intelligence.

**Read more about them here:**

<https://www.naturalscience.org/about-us/>

**On Saturday 11<sup>th</sup> February in an outstanding seminar brought to you from The World Foundation for Natural Science, Zac & Karl will be covering topics such as:**

- ★ **The Green agenda**
- ★ **Destruction of our planet in the name of climate emergency**
- ★ **Digital isn't green!**
- ★ **Eco warrior in Europe**
- ★ **Environmental disaster elsewhere!**
- ★ **How the push by big data is linked to AI , Transhumanism**
- ★ **Threatened blackouts.**

**A further taste of what the Brothers talk about can be found here:**
