

Council Tax...Where Is My Obligation?

...So, Let's Play Chess!!

Are you interested in learning how to play chess or improving your chess skills? Knowing the rules of the game is essential, but understanding how to think strategically is what sets true Chess Masters apart. The rest obviously fail to comprehend the universal principle through which all events on the chessboard are interrelated and occur, and thus **live like dreamers with a false view of the world**. Without understanding of the rules, you will find yourself struggling to make progress and achieve success.

Over Reaching

Unfortunately, we live in an era where over reaching and pervasive authority, whose sole purpose should be to serve us not harm and mislead us, are running roughshod over our Human Rights. The rule of law and our birth rights are being thrown into the gutter, whilst unaccountable and often criminal activities are perpetrated daily by those who's duty is to serve us. With globalist agendas being pushed upon the people via parliament and local government, the nations peace is being trespassed without readdress. **It does not need to be like this.**

Comprehend / Learn together / Share

Via an initial six evening workshops, come learn how to play Chess and comprehend the rules of the game to stop consenting and feeding the tyranny that breaches the nations peace. You'll learn step by step, how to put your opponent into Check. It is just as good as the illusive Checkmate (winning) via the doctrine of 3 notices. Learn from real-life evidence, collective sharing and group strategy, substance over form. Demystify the black magic of the game being played. Learn Private and Public dispute resolution, learn truth over gossip / lies. Learn documentation preparation, and much more.

The guiding principle which underpins the workshops are:

- Nothing can be done to the prejudice of the people.
- Law is the people's birth right
- All are equal under the law
- No one is above the law
- Ignorance of the law is no excuse
- No one can knowingly impose their will upon any other without freewill
- Everyone has lawful excuse to the right of self defence

Divided We Fall, United We Stand.
