

It's all an Illusion.....

**This Week - Monday the 5th of June**

Just like a magician uses sleight of hand to deceive their audience, the same method is being applied against the people when it comes to Council Tax enforcement via the courts and their hired third-party enforcement agents.

Once you understand the tricks and deception being used, you soon realise it's all an illusion to install fear and compliance. Despite our rights being clearly expressed we find ourselves being usurped via the very justice system that was meant to protect us and bring those that breach our peace to task.

In the sixth and final workshops "**Council Tax – Where is my obligation?**", we will look at the dreaded court summons and enforcement tactics to force compliance. We will discuss what should happen, verse what is happening and whether is even worth attending such administrative kangaroo proceedings.

Learn how to submit your paperwork, challenge unwanted visitors at your doorstep and if need be, prevent unlawful attachments of earning from your employee. We will continue the familiarisation process of The Peoples Portal, logging your actions, preparing paperwork, rebutting counter claims for those of you who have received responses.

With this culmination of our 6th workshop, you will hopefully have a better understanding of your rights and realise that what has been done to the people is nothing more than an illusion of threats and fear to comply.

## Over Reaching

Unfortunately, we live in an era where over reaching and pervasive authority, whose sole purpose should be to serve us not harm and mislead us, are running roughshod over our Human Rights. The rule of law and our birth rights are being thrown into the gutter, whilst unaccountable and often criminal activities are perpetrated daily by those who's duty is to serve us. With globalist agendas being pushed upon the people via parliament and local government, the nations peace is being trespassed without readdress. It does not need to be like this.

## Comprehend / Learn together / Share

Via an initial six evening workshops, come learn the rules of the game to stop consenting and feeding the tyranny that breaches the nations peace. You'll learn step by step, via the doctrine of 3 notices. Learn from real-life evidence, collective sharing and group strategy, substance over form. Demystify the black magic of the game being played. Learn Private and Public dispute resolution, learn truth over gossip / lies. Learn documentation preparation, and much more.

### The guiding principle which underpins the workshops are:

- Nothing can be done to the prejudice of the people.
- Law is the people's birth right
- All are equal under the law
- No one is above the law
- Ignorance of the law is no excuse
- No one can knowingly impose their will upon any other without freewill
- Everyone has lawful excuse to the right of self defence

Divided We Fall, United We Stand.
