

# Fuelspiracy!

**Talk with Andrew Knott  
& Peter Murphy**

**Thursday the 29<sup>th</sup> of June**

**@ The Old Convent, Beeches Green,  
Stroud. GL5 4AD ★7 pm ★£8**

**How Knowledge And Use Of A Simple Device  
That Saves Fuel And Cuts Pollution Has Been  
Suppressed By Thirty-Four Years Of UK  
Establishment Deceit And Cover-up, Shedding  
light on little-known activities of UK  
Government departments & famous UK  
organisations. Andrew & Peter have hard  
documentary evidence on file, regarding the  
case of suppression of beneficial technology.**

## **This is how the evidence materialised:**

**“We both had motor industry backgrounds which, in Peter’s case, included senior technical roles in emissions control and fuel system design for a major international motor manufacturer. Then, in the late 1980s (and independently of each other), we became involved professionally with the fuel efficiency and pollution reduction device that this story is all about. At that time there was enormous public interest and uptake of the device by commercial and private customers alike and glowing reports being received day after day from impressed users including police forces, ambulance services, local authority fleets, and many tens of thousands of private customers. Most people would welcome making a good living by doing something that benefits both people and the planet, and we were certainly no different. It was a perfect occupation to have ... for a while. But then there suddenly appeared an onslaught of devastating adverse publicity from famous and revered institutions such as the AA and Department for Transport insisting that the device did not work, and vehemently urging people to reject it...Come & find out more Thursday the 29<sup>th</sup> of June, 7 pm & bring a friend!**

**Welcome to the crazy world of Petro-politics!**
