

LYNNE TAYLOR

COMMON CORE DIVA...

...Is an expert in Common Core Educational Initiative, Career Tech Education, Career Pathways, workforce & competency-based education reform, (SEL) Social Emotional Learning (child abuse in the classroom) STEM/STEAM/STREAM from the UN, & central government overreaches into education and our families. Lynne shares her research with us through a live stream presentation from NC, USA...

...On Thursday the 20th of July

@ The Old Convent, Beeches Green,
Stroud GL5 4AD ★ 7 pm ★ £7 cash

Lynne Taylor is Informing & fighting back against education overreaches to save Heart & Souls.

A sought-after speaker, author, broadcaster, researcher, & activist, & specializing in education, Lynne's research has proven to expose politics, laws, policies, as well as the international ties among the nations.

During Lynne's presentation she will be exposing what our kids are being taught at school, not just from the social aspect but through the new Common Core Agenda, & how our children are being positioned & directed down a career path of control & not of their own choosing. Lynne asks:

- "Have you heard of "MINDSPACE"?"
- Do you know what SEL stands for and why it's in schools?
- Have you read "Brainwash: The Secret History of Mind Control"?
- How does all this intersect and find its way into British classrooms for all ages?
- How does this connect to the 15 Minute Cities & Britain's relationship with the United Nations?

These questions will be answered during Lynne's presentation. Much more information will also interweave the plight of British education to that of the United States & every other member-state of the UN. commoncorediva.com & Twitter: [@commoncorediva](https://twitter.com/commoncorediva)

Come & hear Lynne lead us through her presentation "Mind Grabs, UK" **Thursday the 20th of July, 7 pm.**
