The Art of Living Together

What Becomes Possible When We Really Meet?

An open workshop for entrepreneurs and self-employed people beginning with ourselves and our businesses exactly as they are

FRIDAY 13 NOVEMBER 2026

The Open Book

57 London Road, Stroud GL5 2AD

What can happen when we meet without having to solve anything, sell anything or become anything other than who we already are?

We begin with **ourselves and our businesses exactly as they are**. There is no predetermined outcome. Nobody has to pitch a business, defend a choice or arrive with a clearly formulated question.

We practise listening, observing and becoming interested in one another, without immediately advising, judging or looking for solutions. We share only what we want to share.

Perhaps new capacities, needs and possibilities become visible. Nothing has to happen. We meet as equals and see what wants to emerge.

WITH JAC HIELEMA

Three hours of meeting and exploration, including a break.

Contribution: no fixed price. Finding a fair contribution is part of the workshop.

What happens when people who want to live increasingly from within themselves begin to meet one another?

An introduction to the **two-year training programme**, through practice. We meet, do exercises, observe what happens within and between us, and share what we discover. No need to agree; no obligation to continue.

Year 1 · Become Your Own
Inner development: observing ourselves, distinguishing drives from motives, and learning to think and act from within.

Year 2 · Create Together
Creating social life together: agreements, work, ownership and a more conscious relationship with money and capital.

Ten full training days each year, from 10.00 am to 5.00 pm.
